

# Zone 5 inner

## Section 8 : East Croydon to West Croydon

Distance: 0.69 mi, 1.10 km

### Introduction

This is a very short and simple section, that crosses the centre of Croydon. It falls into two halves, the first going west and the second going north.

There are plenty of places to eat during the first half, but surprisingly few during the second.

### Directions

Turn right out of the main entrance of East Croydon Station.

Follow the tramlines straight ahead, crossing a dual carriageway.

Turn right at the corner of the Hospital of the Holy Trinity.

Follow the pedestrianized street all the way to the end.

Then keep straight on, and you will shortly reach West Croydon Station on the right.
